

**REMARKS/ARGUMENTS**

In light of the above amendments and remarks to follow, reconsideration and allowance of this application are respectfully requested.

Claims 1-15 and 26-34 are pending in this application. Claims 16-25 and 35-56 are canceled.

Claims 1-56 were rejected under 35 U.S.C. §112, first paragraph, as failing to comply with the written description requirement due to the different types of additional information previously amended into the claims. As noted by the Examiner, this limitation is disclosed on page 2 of the specification. Applicants respectfully disagree that this description is somehow insufficient to support this limitation. Regardless, the added limitations have now been deleted. Accordingly, this rejection is moot.

Claims 1-56 were rejected under 35 U.S.C. §103(a) as being unpatentable over Benyamin et al. (U.S. Patent 6,721,489) in view of Marko et al. (U.S. Patent 6,564,003) and AAPA (Applicants' admitted prior art).

The present claims now recite "wherein the key information is set using a plurality of keywords with logic OR and logic AND." (Claims 1, 8, 26, and 34) This limitation is supported by the description of the key information provided in paragraphs [0057-0059] of the specification. Applicants respectfully assert that neither Benyamin, Marko, or AAPA discloses analogous key information which includes a plurality of keywords linked using logical OR and AND connectors.

Accordingly, for at least this reason, Benyamin, Marko and AAPA fail to obviate the present invention, and the rejected claims should now be allowed.

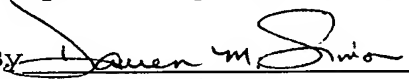

In view of the above, each of the presently pending claims in this application is believed to be in immediate condition for allowance. Accordingly, the Examiner is respectfully requested to withdraw the outstanding rejection of the claims and to pass this application to issue.

If, however, for any reason the Examiner does not believe that such action can be taken at this time, it is respectfully requested that he/she telephone applicant's attorney at (908) 654-5000 in order to overcome any additional objections which he might have.

If there are any additional charges in connection with this requested amendment, the Examiner is authorized to charge Deposit Account No. 12-1095.

Dated: October 25, 2007

Respectfully submitted,
